THE MARKET BASKET

Garden Stuff Coming Within Reach of the Average Consumer.

FRESH CAUGHT FISH IN PLENTY.

Choice Country Butter in Demand---Poultry Very Scarce.

FLORISTS ARE FORCED TO HUSTLE

OFFICE OF PITTSBURG DISPATCH, FEIDAY, April 12, 1849.

At fruit and vegetable stalls everything is reported cheaper than last week, with the exception of sweet potatoes. Southern strawberries come in freely, and are retailed at 25c to 85c per quart. Lettuce and asparagus of the very best quality are coming to the front in supply ample for all demands at prices lower than last week. Tomatoes are scarce and

firm, but prices are unchanged.

Trade in the lines of new garden stuff has been fair all the week, but there has been nothing akin to a boom. A leading dealer at Diamond market said: "We have no reason to complain of business this week. If the weather prophet will only be kind to us on Saturday, trade for the week will be all that we could reasonably exceet."

reasonably expect."

In the line of lake and ocean products trade is now at its best. Fresh caught fish from the lakes begin to come in freely as the ice is moving out. Frozen fish are now virtually out of the market for this season. The demand for fresh more than keeps pace with the supply.

Another week brings us to Easter, and fish dealers look for their best trade from now on till a week or two after the close of the Lenten fast. Said a leading dealer in this line: "Lent's au aid to our trade at a time of the year when it would otherwise be at its worst. The truth is, however, that the fish trade is usually best for a few weeks after Lent is past."

Butter Rather Scarce. Choice country butter is scarce and firm, for the reason that cows have left hay and fodder and grass is too short to furnish the required allowance. The season is between hay and grass, and the fact shows itself in dairy pro-

grass, and the fact shows itself in dairy products.

Eggs should be bought at two dozen for a quarter, according to jobbing rates. A country-man who visits our markets weekly reports, however, that he had no difficulty selling his egg stock at 18c to grocers.

Poultry was seldom scarcer at this season than it is now. A peddler from Clinton reports that this week is the first time in five years that he has brought no poultry to market, and for the good and sufficient reason that there was none on his beat for sale.

Florists report improvement in their line of trade. The season for flower and vegetable seeds and trees is now at its height. A leading florist reports that demands on his products, especially for fruit trees, are so strong that all hands are hustling. Everybody at this time of the year wants fruit trees right away. This condition of things will continue up to May.

Following are the latest retail prices for Saturday's market basket material, as gathered from dealers:

Meats.

steak range from 20 to 25c, with the last figure for very fancy, which are very often no better than the 20c article; sirloin, best cuta, from 18 to 20c; standing rib roast, 15 to 20c; chuck roast, 10 to 12c; best round steaks, 15c; bolling best, 5 to 8c; sweet breads, 25c per pair: beef kidneys, 10c apiece; beef liver, 5c a pound: calf livers, 25c apiece; corned beef from 5 to 10c per pound. MARKETS BY WIRE.

Wheat Active and Unsettled, With Slight Changes in Prices - The May Future Manipulated - Hog Products

Bang Around Old Figures. CHICAGO—There was good trading in wheat during most of the session to-day, principally for July delivery. The feeling was somewhat unsettled, and the course of the various futures was somewhat irregular. May, for instance, advanced 3%c, broke off 3c and closed 1%c higher than yesterday. Not much interest was manifest in May and little attention given that month, consequently trading was light. that month, consequently trading was light. Either buying or selling caused wide fluctuations. For June prices advanced 3/4c, declined 23/4c and closed about 3/4c higher than yesterday. July opened 16% lower, advanced 1c and then for a while fluctuated with moderate range until after 11 o'clock, when the market

then for a while fluctuated with momerate range until after 11 o'clock, when the market broke off about 2%c, reacted some and closed %c lower than yesterday.

It was the opinion of traders that the May future was bid un to affect the deferred futures, and give operators a better opportunity to soil. The shorts covered freely, and operators, too, got loaded with long wheat, which came out again on the break and helped to increase the weakness. It was rumored also that the wheat brought here yesterday for shipment had been sold out again for May delivery. Whether this is so or not, the rumor had its influence on the market. Rains were reported throughout the Northwest, and this has made sellers more confident.

A fair business was transacted in corn early in the session, after which the market became quiet and inactive. The feeling developed was steady, opening sales being at yesterday's closing prices, and under a fair local demand the market advanced %c. The demand was soon satisfied, however, and the market reacted to inside figures, and corn quotations were about the same as yesterday.

Onts were weak and lower. The opening was

the same as yesterday.

Oats were weak and lower. The opening was

Oats were weak and lower. The opening was at yesterday's close to 1/3c lower, with a downward tendency. Prices for May declined 11/3c, rallied slightly, but closed steady at nearly inside figures. Fluctuations in June and July were small and the feeling prevailed in hog products and prices fluctuated frequently within a small range. At the opening the market was stronger, owing to the steady hog market and increased orders to purchase on behalf of outside parties. Prices were slightly advanced on the leading articles. Rather free offerings, however, caused a weaker feeling and prices declined again, but soon rallied with fair buying by local shorts. The upward tendency was checked again, and prices receded, but toward the close the feeling was steadier and prices improved again slightly, the market closing at about medium figures.

The leading rutures ranged as follows:

Whearm No. 2 May \$50.6881.6881.6886.

seeds and trees is now at its height. A leading florist reports that demands on his products, especially for fruit trees, are so strong that all hands are hustling. Everybody at this time of the year wants fruit trees right away. This condition of things will continue up to May.

Following are the latest retail prices for Saturday's market basket material, as gathered from dealers:

Meats.

CINCINNAT:—Hogs in light demand and cower; common and light, 14 0004 50; packing butchers, 15 6004 70.

PROOF OF PROGRESS

The Drygoods Trade of Pittsburg Larger Than Last Year.

TURKEYFOOT OIL TERRITORY. The Far West Excited Over Developments in Coal and Petroleum.

GOOD WORDS FROM A NEW YORK MAN

One of the many wholesale drygoods houses in this city reports an increase of \$15,000 in the sales for March of this year over those of the same month in 1888. This indicates that at least one branch of business is fairly booming. Close investigation shows that all other branches except iron are doing better than at the same time last year.

Mr. Rufus H. Herron, wellkhown in connec tion with local real estate matters, returned yesterday from the Turkeyfoot oil region in West Virginia where he has large interests. He reported the oil business down there in good shape. He has two good producing wells and is drilling several others. Mr. Herron believes from present indications that the Tnr-keyfoot field will eventually rival the best producing oil districts in Pennsylvania. It has al-most unlimited possibilities and is being worked with care and good judgment.

Almot, Kan., is considerably worked up over the recent coal discoveries there. At last acfeet, and had passed through four veins of coal. The first was reached 1,680 feet below the earth's surface, and was 40 inches thick. Thirty feet below this a 28-inch vein was found. A third vein 24 inches thick was found 30 feet further down, and 96 feet below the third vein a fourth layer was found 3 feet thick, which makes a total of 10% feet of coal discovered. An analysis by W. D. Church, of Topeka, a practical chemist, makes it out to be an anthracite coal fully equal to the Pennsylvania

A. E. Orr, of the firm of David Dows & Co., New York, and President of the Produce Exchange of that city, was in Pittsburg yesterday, and visited many places of interest. He expressed himself well pleased with the evidences of thrift and enterprise that met him on every hand. Mr. Orr, while admitting that business was a little off for the season, expressed confidence in a speedy revival.

Philadelphia builds houses at the rate of 7,000

a year. Pittsburg, with about one-third the population of the Eastern metropolis of the State, will do more than half as well this season, between 3,000 and 4,000 houses being practically assured. With four or five exceptions. Pittsburg is the greatest builder in the Union. This speaks well for the foresight and enterprise of

A Cleveland gentleman who was in the city yesterday said the opening of the lake trade would undoubtedly give business a fresh impetus, as it would affect a variety of interests and a great body of men, both of which have lain dormant for several months. It would result particularly to the advantage of fron manufacturers, as the railroads would be compelled to reduce their rates on ores to compete with water transportation.

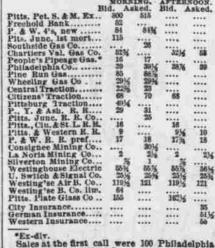

Prof. Richard Dean, who has been experimenting for some time with Florence, Col., petroleum for lubricating purposes, has dem-onstrated that it is an oil which may be made a Inbricant surpassing the world-renowned Franklin oil, made from Pennsylvania petrol-eum, The discoveries made by Mr. Dean are, it is said, bound to revolutionize the oil business in Colorado. Here is 65 per cent of the crude oil which heretofore has found but a very poor market even as fuel, but which may now be turned into ready cash, and a product for which there is a large warfer. which there is a large market.

A Liberty street fruit dealer said yesterday that indications pointed to an enormous crop of oranges in Florida next season, and a big re-duction in prices. The orange industry, he added, like almost everything else, is being overdone. The market will be surfeited if production is not restricted.

COMING TO THE FRONT.

Pittsburg and Western the Redeeming Fenttire of the Stock Market.

Pittsburg and Western Railroad shares were the particularly bright spot in the stock market yesterday. There was lively competition for both preferred and common. For the latter 934 was bid and 10 asked for large blocks. Preferred closed at 1734 bid and 18 asked. Pleasant Valley Street Rallway stock was another redeeming feature of the day, 125 being bid. This is an advance of \$15 per share over the price of the previous day. Plate Glass was bid up \$7 50 a share without offerings. The gassers were weak, except Chartiers, which was higher and firm. There was no anxiety to buy Electric, Tractions or Switch and Signal, all of which were depressed. Bids, offers and sales follow:

Sales at the first call were 100 Philadelphia Gas at 38%, 125 at 39, 12 Panhandle at 16, 5 Electric at 55%, 10 at 55% 100 at 56 and 10 Switch and Signal at 25%.

In the afternoon 130 shares Philadelphia Gas went at 38, 50 Chartiers at 53, 106 Electric at 56, 50 Central Traction at 22% and 30 s. o. b. at 22% One membership changed hands at \$505.

The total sales of stocks at New York yesterday were 279,887 shares, including: Atchison, 28,355; Delaware, Lackawanna and Western, 17,500; Lake Shore, 3,820; Louisville and Nashville, 8,806; Missouri Pacific, 4,650; Northwestern, 13,225; Northern Pacific preferred, 10,460; Reading, 38,340; Richmond and West Point, 3,566; St. Paul, 24,222; Union Pacific, 19,766; Western Union, 20,065.

IMPROVING SLOWLY.

Bankers Hopeful of a Spart inithe Money Market.

There was nothing new in the local money market yesterday. A very moderate amount of paper was offered for discount, which was accepted at the usual rates. "The demand for accepted at the usual rates. "The demand for money is hardly up to expectations," remarked a Wood street financier, "but it is improving, and we expect before long to find employment for our idle capital." Checking and depositing were fair in volume. There was less pressure for small notes, but the scarcity was sufficient to give some inconvenience. Manager Chapling got out another favorable Clearing House statement, the exchanges footing up \$2.208.837 25, and the balances \$610,198 62.

Money on call at New York yesterday was easy at 3 to 5 per cent. Last loan 3, closed offered at 3. Prime mercantile paper, \$4.66. Sterling exchange dull but steady at \$4.57 for 60-day bills, and \$4.85% for demand.

NEXT TO NOTHING. Oil Dealers Almost Despairing of a Change

There was next to no oil market at all yesterday. Even the scalpers looked blue. The continued absence of cutside support is viewed with alarm by many dealers. Without it a change for the better, under present conditions, is next to impossible. The market opened at 89%c, advanced to 90c, dropped to 89%c, and closed at 89%c. There were a few sales at 90c, deliverable Monday, with offers at the same price. Trading was very light, and extended to puts and calls.

A. B. McGrew & Co. quote: Puts 89%; calls, 90%, 200%.

The following table, corrected by De Witt Dilworth, broker in petroleum, etc., corner Fifth avenue and Wood street, Pittsburg, shows the order of fluctuations, etc.; For the Better.

New York closed at 80%c. Off City closed at 90c. Bradiore closed at 90c. New York. refined, 7c. London, refined, 5%d. Antwerp, refined, 16%f. OIL CITY, April 12.—National transit cer-tificates opened at 89%c; highest, 90%c; lowest, 89%c; closed, 90c.

BRADFORD. April 12—National transit certificates opened at 89%c; closed at 90c; highest, 90c; lowest, 89%c.

Trusville, April 12.—National transit certificates opened at 89%c; highest, 90c; lowest, 80%c; closed, 90c. NEW York, April 12—Petroleum opened weak at 89%, but advanced slowly on small transactions and closed firm at 90c. Sales, 337, 000 barrels.

STILL THEY GO.

Sewickley Residence Changes Hands

Other Dickers in City and Suburbs.
Samuel W. Black & Co., 99 Fourth avenue, sold for William G. McCullough, a two-story frame dwelling of eight rooms, etc.; lot 80x200, on Beaver street, Sewickley, for \$6,000.

George T. McConnell sold for John Keeley to Ann Dickinson, a frame house of six rooms.

Ann Dickinson, a frame house of six rooms. lot 20x100, on Scioto, near Gross street, Twentieth ward, for \$2,500 cash.

C. H. Love sold two lots on Homewood avenue and Bennett street, 22\(\) x100 feet each, for Emil Loos and Charles Nichol to David Robinson, for \$1,100.

Ewing & Byers, No. 107 Federal street, placed a mortgage of \$1,500, for one year at 6 per cent, on property at Osborn station.

Black & Baird, Fo. 95 Fourth avenue, sold to Mrs. Jennie Novinski for the Rhodes estate, a three-story brick dwelling, on the northeast corner of Logan and Franklin streets, with lot 24x48 feet, for \$4,000.

C. Beringer & Son, 168 Fourth avenue, sold for Dr. S. D. Jennings, a small farm of 16 acres, near Perrysville, for \$1,500; also, for James McCurry, a five-room frame house and lot at Homewood station, Pennsylvania Railroad, for \$1,500.

James W. Drape & Co. sold a double house

\$1,500.

James W. Drape & Co, sold a double house and lot on Thirty-ninth street, below Butler street, for \$4,600 cash. They also sold a piece of land in Ross township at \$250 an acre; also placed two mortgages on suburban and city properties of \$19,000, at 6 per cent; also two mortgages of \$6,500 on a farm in Allegheny county, and also on a farm in Beaver county, at 6 per cent.

QUIET BUT FEVERISH.

Lower London Quetations and Bearish Advices Fall to Smash the Market-Pittaburg and Western on the Winning Side-Slight Changes.

New York, April 12.-The stock market was quiet but feverish and irregular throughout the day, and prices made no material progress in either direction, the final changes in all the active shares being for fractional amounts only. London prices came lower this morning for the first time in several days, and the foreign houses also evinced a desire to sell some of the stocks bought more liberally during the past few days. This gave the bears a handle with which to hammer the list a little,

some of the stocks bought more liberally during the past few days. This gave the bears a handle with which to hammer the list a little, but their operations lacked confidence, and when the buying assumed anything like the proportions of the past few days they were quick to run, and in the Grangers at one time bid prices up on themselves rapidly.

The lower quotations from London were supplemented by bearish advices from Chicago again, but the market showed the most determined resistance to the efforts to get it down, and while some heavy drives were made at portions of the list. Atchison being specially conspicuous, there was little impression made except for a short time. The market opened with a spuri of activity, but this soon died away and the market was, for the most part, quiet to duil, with short periods of animation throughout the day. First prices showed declines from last evening's figures, extending to ½ per cent, and these losses were further increased by small fractional declines in the early transactions. They were entirely insignificant until after II o'clock, when a buying movement set in which largely increased the amount of business done and advanced quotations all over the list, and with the Grangers leading almost everything was bought up to something over the opening prices.

This was followed by dullness and comparative stagnation which lasted until toward 2 r. M., when the list got a sagging tendency, and pressure being brought upon Atchison, considerable of a decline was brought about. The buying began again before the close, and the market closed quiet and firm at irregular changes for the day. Several of the specialties made marked movements during the day. Memphis and Charleston was very prominent, scoring a final cain of 24c per cent, and was followed by Pittsburg and Western and Colorado coal. In the unlisted department Sugar Trust made a further advance at first, but became feverish and finally lost all the improvement. Brunswick was less active, but the business was very widely di

DOMESTIC MARKETS.

The Season Being Between Hay and Grass, Butter is Scarce.

APPLES ACTIVE, POTATOES SLOW.

Choice Oats and Hay Strong, Flour Easy, Milifeed Dull.

COFFEE AND SUGAR TEND UPWARD

OFFICE OF THE PITTSBURG DISPATCH, FRIDAY, April 12, 1889. Country Produce-Jobbing Prices. Rutter and egg markets are lively, without any change in prices. A scarcity of good country butter is reported for the reason that we are now in the season which is between hay and grass. Eggs are in good demand until 12c is asked by the jobber. Then trade suddenly becomes allow. There is an active demand for comes alow. There is an active demand for choice applies. One Liberty street commission merchant reports sales of 100 barrels of Rome Beauties and Willows to-day at \$2 to \$2 25 per barrels. Potatoes give no signs of improvement. Onions, cabbage and turnips can hardly be given away. It cannot be long until all old stuff will be worked off at greater or less loss. stuff will be worked off at greater or less loss. The hope of commission men is that we will not again for a term of years enjoysuch a bountiful crop from field and garden. Another such abundant year as the past has been would knuck out the commission trade and be utterly discouraging to producers.

SSS

I am satisfied that Cancer is hereditary in my family. My father died of it, a sister of my mother died of it, and my own sister died of it. My feelings may be imagined, then, when the horrible disease made its appearance on my side. It was a malignant Cancer, eating inwardly in such a way that it could not be cut out. Numerous remedies were used for it, but the Cancer grew steadily wo..e., until itseemed that I was doomed to follow the others of the family. I took Swift's Specific, which, from the first day, forced out the poison and continued its use until I had taken several bottles, when I found myself well. I know that S. S. cured me. MRS. S. M. IDOL. WINSTON, N. C., Nov. 26, '88.
